BASIC PITCH

[DEMO](#)[ABOUT](#)[GITHUB](#)

Try Basic Pitch, a free audio-to-MIDI converter with pitch bend detection, built by Spotify. [Learn more](#) or follow the instructions below.

- 1 — Press record and sing a ditty into your computer. Or drop a recording of any single instrument (piano, guitar, xylophone, you name it).
- 2 — Then get a MIDI version back. Just like that.
- 3 — Download the MIDI file to fine tune and make corrections in your favorite digital audio workstation.
